

# IEEE 6G SUMMIT DRESDEN 2024 Startup Call

May 13 – 14, 2024

Dear Startups,

Embark on a journey into the future of connectivity at the [IEEE 6G Summit Dresden 2024](#)! Save the date for **May 13 – 14, 2024** and join us at **Messe Dresden, Germany**, for a dynamic two-day event that unites industry leaders, academic pioneers, and tech enthusiasts. Brought to you by **IEEE, 5G Lab Germany, and TU Dresden**, the Summit will captivate with insightful **talks** by global professionals and forward-thinking industry leaders. Immerse yourself in an **exhibition** showcasing unique demonstrations from a diverse mix of global players, startups, and academic institutions. This is your opportunity to engage in the exchange of groundbreaking ideas, explore emerging trends, and discover exciting business prospects that will shape the landscape of future mobile communications.

We are thrilled to announce our **startup call** for this impactful industry-focused event. We invite startups to **apply for the opportunity to pitch their company** and products to an audience of approximately 500 industry executives and academic thought leaders in our plenary session. Recurring participants of the summit are executives of the major equipment suppliers and network operators in Europe, as well as chip manufacturers and prominent users of 5G networks.

Startups within the broader 5G/6G field are warmly invited to **apply with a pitch deck** containing up to 10 slides by **February 14, 2024**, to [florian.gast@tu-dresden.de](mailto:florian.gast@tu-dresden.de). The top applicants, selected by our jury, will get a prestigious **3-minute keynote pitch slot on May 14**, and a **pitch training** by our partner **HighTech Startbahn**.

**All startups**, also the ones not selected, will get a **presentation area in our esteemed exhibition** and **two full-access tickets** for the heavily discounted price of 580€ (not including tax).

Be a part of the 9th chapter of this influential conference, where innovation converges with expertise in unexpected ways. See you there, ready to witness and contribute to the evolution of the next generation of mobile communications!

Best regards,

**Gerhard P. Fettweis**

Vodafone Chair Professor  
CEO Barkhausen Institut  
Coordinator 5G Lab Germany

**Frank H. P. Fitzek**

Telekom Chair Professor  
Coordinator 5G Lab Germany and 6G-life  
Speaker CeTI
